haeri	himni	horizont'i
air	hymn	horizon

Two hands, one letter. This sheet practises the modern mkhedruli form and its historical asomtavruli counterpart. Georgian is unicase, so there is no capital or lowercase to learn. Mkhedruli rows use the dashed x-height line; asomtavruli is a majuscule and uses only the top and baseline. Full reference: georgianalphabet.com/letter-hae
